Now that your enrollment is complete, here's what to expect:

GREAT RATES AND THE BEST CUSTOMER SERVICE IN THE INDUSTRY!

The Illuminating Company has been notified of your request to have NextVolt Energy supply your electricity. Once your account is processed and your next meter read is completed NextVolt Energy will begin to supply your electricity. *

Because The Illuminating Company customers are billed for their previous month's electricity usage, it will take one full billing cycle before you see NextVolt Energy on the supply portion of your The Illuminating Company bill. This information will appear on your bill as seen in the example on the right.

Although not typical, the switch can take up to 60 days to occur. For example, if you were to enroll with NextVolt on June 6th and your next meter read date is 10 days later, on June 16th, your account would not be fully processed until your next meter reading, which would be in July. In this case, you wouldn't see NextVolt Energy as the electricity supplier on your bill until August.

Please note, a message about NextVolt Energy may appear on your The Illuminating Company bill the month *prior* to receiving your updated NextVolt rate. This message is us letting you know that the bill is still under your current supplier and rate, and that your next bill will be with us as your electricity supplier!

We will continuously monitor your enrollment to ensure that you are able to take advantage of your new rate as soon as possible. If you have any questions about the enrollment process our customer service team is available to answer your questions at 877-473-7266 or at customerservice@nextvoltenergy.com.
